

Health-Tec® Family of Gloves

We at Dental Health Products believe that gloves are the most important infection control measure doctors can take to protect themselves and their employees from infectious diseases.

Commitment to Excellence

Through our strenuous research and development process, we have identified a complete line of gloves that surpass industry standards.

Only gloves made from the highest quality materials will proudly bear the Health-Tec® name.

Dental Health Products supports the Health-Tec brand of products with a 100% satisfaction guarantee, competitive pricing, and unparalleled customer service.
