

Tec-Cide Plus+

Tec-Cide Plus 3.0% Glutaraldehyde is a new, higher strength formulation with accelerated kill times for faster high level disinfection of instruments. Tec-Cide Plus uses a lower glutaraldehyde level than other extra strength products to reduce odor and vapor level in the operator. Tec-Cide Plus has a minimal surfactant level to protect lensed instruments and a new solid activator to assure a mild pleasant smell at the higher glutaraldehyde concentration and to maintain a consistent efficacy level through 28 days of continuous use.
